IN-EAR MONITORING

Mix in-ear monitorů si kapela zařizuje sama. Vokály, strunné nástroje a samply (prakticky vše kromě bicích nástrojů) mají pro zvukaře výstupy přes splitter.

Zvukař obstará osazení bicích nástrojů mikrofony, a dále kompletní zvuk pouze pro publikum. Pro potřeby kapely pošle do splitteru 1x AUX linku, která bude obsahovat smíchané bicí nástroje.
